

ProGuard Chlorine Shut Off

The ProMinent ProGuard auto shut off system provides for fast acting , fail safe emergency closure of either drum or cylinder valves.

ProMinent[®] ProGuard Chlorine Guard Shut Off

System Features :

- Manual operation
- Integration with leak detectors
- Pneumatic operation with electronic control
- Connection to either process air or stand alone bottle air or N₂
- Battery backup 8 hours or greater
- Fail safe design
- Single drum / bottle or multiple operation
- Supplied with new equipment or retro fitted to existing units

System Operation :

The pneumatic cylinder oscillates to close the valve. The System activates when :-

- Alarm contact is activated
- Low battery life is sensed
- Low air pressure is sensed in the actuation system
- Manually initiated
