

ProMinent gamma/X

Controlled Solenoid Diaphragm Metering Pump

Engineered with reliability, economy and functionality in mind

ProMinent are excited to announce the release of the new gamma/X controlled solenoid operated metering pump.

The new gamma/X comes with a range of additional features. The main feature being the ingenious electronic solenoid control, this ensures continuous dosing even at very low dose rates.

ProMinent®

FEATURES & BENEFITS

- Simple adjustment of capacity
- Direct input of desired concentration for proportional metering
- Integrated monthly timer
- Discharge line pressure shown on the digital display
- Control from 0/4-20mA (optional)
- Control from potential free-pulse contact with multiply or divide (standard)
- Auxiliary relays available for monitoring and alarm retransmit
- Bluetooth connectivity via Android (optional)
- Capacity range 1.15 ml/h – 45 l/h, 25 – 2 bar
- Sophisticated solenoid control detects hydraulic deviation over pressure, ruptured discharge lines or negative pressure and gas in the dosing head are all detected without the need for an additional sensor in the dosing head
