

Motor-Driven Metering Pump alpha

The cost-effective solution for simple applications in the lower performance range

ProMinent®

Capacity range 1.0 – 30.6 l/h, 10 – 2 bar

Various pump types are available as a combination of 2 gears and 4 sizes of dosing head in materials PVDF and clear acrylic/PVC, enabling you to match the pump perfectly to your metering process.

Your benefits

- Precise metering and good suction capacity by soft controlled suction and compression strokes
- Tough plastic housing – shock-proof and chemicalresistant
- Suitable for higher viscosity media, thanks to spring-loaded valves
- Low-noise operation

Field of application

- All low capacity applications where constant metering is required.
