# 1.7 ProMinent® DULCO® flex Pumps

- Performance range 0.4-2.4 l/h at max. 1.5 bar back pressure
- Hose material: PharMed or Viton (special applications)
- Suitable for continuous operation
- Control and/or quantity control via mains ON/OFF
- Practically silent operation
- Self-priming against max. 1.5 bar
- Gentle metering
- Optional in built pulse duration (10:1 manual adjustment)
- Timer Pump refer Page 1.11

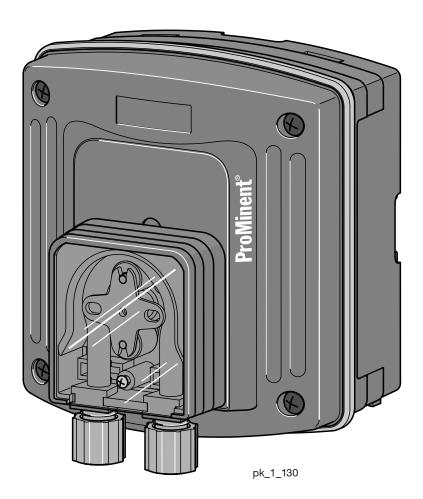

The ProMinent® DULCO® flex is a peristaltic pump. The metering chemical is displaced in the direction of flow as a rotor squeezes the hose. No valves are required which ensures that the chemical is treated extremely gently.

Typical applications are processes in which only a limited feed pressure is required such as the metering of

conditioning agents in private pools, belt lubricants in bottling machines or the metering of cleaning agents in rinsing machines.

The robust, chemical-resistant PPE housing is protected on all sides from spray (IP 65), which guarantees its universal application capability.

## OEM versions are available on request.
