

Peristaltic Pump DULCO[®] flex DF2a

The optimum pump product range for use in swimming pools, hot tubs, and spa zones

ProMinent[®]

Capacity range 0.4 – 2.4 l/h at max. 1.5 bar back pressure

The feed chemical is transported by the rotor squeezing the hose in the direction of flow. This explains why there is no need for valves. The feed chemical is thus handled with care. Typical applications: wherever lower pump pressure is sufficient. For example when metering conditioners in private pools.

Your benefits

- Hose materials: PharMed[®] or Viton[®].
- Virtually silent operation.
